

COLLECT CALL FROM MARS

Lucid

You get overloaded
Really stressed
Upset in mind

You do it all to yourself
but you cannot figure that out,

You talk about it
Every minute of the day
It's crazy

It's just one little thing
but you cannot figure that out

When you're phase is over
You just think, it's fine, with me
but I've got one more complaint

Cause you gotta walk by
Gotta feel right
Gotta look nice
Or else you gonna lose yourself again.

You gotta go lucid on me
and you gotta go and redefine
You're stupid self again
You gotta go lucid on me
and you gotta go and redefine
You're stupid self again

Today it is your hair
Tonight it is your big waistline

You do it all to yourself
but you cannot figure that out, ohoh

You are awake for hours
Thinking about the daily fuck ups

It's just one little thing
but you cannot figure that out

When you're phase is over
You just think, it's fine, with me, hell no
but I've got two more complaints

Cause you gotta walk by
Gotta feel right
Gotta look nice
So you can make it through the day

So you gotta go lucid on me
and you gotta go and redefine
You're stupid self again
You gotta go lucid on me
and you gotta go and redefine
You're stupid self again

Again, again, again, again.

Stop stressing about
little problems in your life.
On the grand scale
They don't mean a shit.
Enjoy, have fun and
try to misbehave.
Let someone win.

Oh , Let yourself go. Ohohoh

So you gotta go lucid on me
and you gotta go and redefine
You're stupid self again
You gotta go lucid on me, me

and you gotta go and redefine, you
gotta redefine, you gotta redefine
Again

Lucid on me
You gotta go gotta you gotta go.
